

# Preliminary Operating Statistics

## For the 3<sup>rd</sup> Quarter of the Financial Year Ended 2013

AirAsia X Berhad (“AAX” or “the company”), the long-haul, low fare airline affiliate of the AirAsia Group is pleased to announce the operating statistics for the 3<sup>rd</sup> Quarter 2013 (“3Q13”).

AAX achieved an impressive traffic volume of 4.2 billion Revenue-Passenger-KMs (“RPKs”), representing a 30% year-on-year (“y-o-y”) growth compared to the same quarter last year. The improved performance was boosted by higher capacity of 5.1 billion (+32% y-o-y) Available-Seat-KMs (“ASKs”) with a passenger load factor of above 80%. The total number of passengers carried for 3Q13 was 0.8 million, an increase of 32% y-o-y as compared to 2Q12, with North Asia and Australian routes being the key growth sectors.

During the same period of review, the operational Airbus A330-300 fleet has increased from 9 to 14 units. AAX launched two new routes this quarter, namely Busan, Korea on 15 July 2013 and Maldives via Sri Lanka on 28 September 2013; expanding its route network to a total of 17 destinations across 9 countries.

Cargo operations continue to see promising demand, carrying 8,079 tonnes of freight with 46% load factor level during 3Q13 for its existing routes.

AAX remains focused on our core markets in the Asia Pacific region. We intend to continue to grow our route network in markets where we can maintain or build up to a market leadership position.

### 3<sup>rd</sup> Quarter 2013 Operating Statistics

AIRASIA X	JULY- SEPT 2013		
	2013	2012	Change
Passengers Carried <sup>1</sup>	843,693	637,441	32%
Capacity <sup>2</sup>	1,028,456	766,441	34%
Load Factor (%) <sup>3</sup>	82	83	-1 ppts
ASK (mil) <sup>4</sup>	5,137	3,895	32%
RPK (mil) <sup>5</sup>	4,227	3,243	30%
Number of stages <sup>6</sup>	2,728	2,033	34%
Average stage length (km)	4,995	5,082	-2%
Size of fleet at month end <sup>7</sup>	14	9	5

(1) Number of earned seats flown. Earned seats comprise seats sold to passengers (including no-shows) and seats provided for promotional purposes

(2) Number of seats flown

(3) Revenue Passenger Kilometres (RPK) / Available Seat Kilometres (ASK)

(4) Available Seat Kilometres (ASK) measures an airline’s passenger capacity. Total seats flown multiplied by the number of kilometres flown

(5) Revenue Passenger Kilometres (RPK) is a measure of the volume of passengers carried by the airline. Number of passengers multiplied by the number of kilometres these passengers have flown

(6) Number of flights flown

(7) Number of operational fleet excluding the 2 A340s
