## 2.5 Basis of estimates

The estimated transaction values for the RRPTs referred to in Section 2.3 of this Circular are based on (i) estimated prevailing prices, which are reasonably market-competitive; and (ii) the sums incurred or received over the past years for similar transactions. The estimated transaction values were also projected based on the assumption that (i) our Group's usual levels of transaction; (ii) our Group's projected business volume; and (iii) our current level of operations would be maintained, from the date of our forthcoming AGM to our next AGM.

## 2.6 Review procedures for RRPTs

We have established the following policies and procedures to ensure that all RRPTs will be entered into on normal commercial terms and on arm's length basis, on terms which will be not more favourable to our Related Parties than those generally available to the public, and will not be detrimental to our non-interested shareholders:

- (i) Directors are required to make full disclosure at once, of the nature and extent of any direct or indirect interests they may have in any business enterprise with an existing or proposed relationship with our Group, including all matters in relation to the proposed RRPT that he is aware or should be reasonably be aware of, whether or not they believe it is a material event or agreement. Upon such disclosure, the interested Director(s) are required to abstain from board deliberation and voting on any resolution relating to such related party transaction(s);
- (ii) There are no specific thresholds for disclosure of related party transactions in our Company for internal deliberation. All existing or potential related party transactions have to be disclosed by the interested parties for management reporting by the relevant head of department in which the transaction falls under ("**Management**"). The Management will propose the transaction by providing a transaction paper and other relevant documents including a draft announcement to be submitted to Bursa Securities to the Legal Department, at least 2 weeks prior to the Audit Committee meeting to ensure the regulatory requirements have been met. Upon obtaining clearance from the Legal Department, Management will sign off on the transaction papers and the matter shall be tabled to our Audit Committee for evaluation and assessment. The Audit Committee will in turn make the necessary recommendation to our Board;
- (iii) With the information provided in the RRPT papers, our Board ascertains that at least two (2) other contemporaneous transactions with unrelated third parties for similar products or services and/or quantities will be used as comparison, wherever possible, to determine whether the price and terms offered to or by the Related Parties are fair and reasonable and comparable to those offered to or by other unrelated third parties for the same or substantially similar type of products or services and/or quantities. In the event that a quotation or comparative pricing from unrelated third parties cannot be obtained, the transaction price will be based on prevailing market prices that are agreed upon under similar commercial terms for transactions with third parties, business practices and policies and on terms which are generally in line with industry norms and not more favourable to the Related Party than those generally available to the public and are not to the detriment of our Company or our Group or our non-interested shareholders;
- (iv) In reviewing and evaluating the RRPTs, the following are considered: the rationale and the cost/benefit to our Company; and where possible, comparative quotes, including sources, methods and procedures through which transaction prices are determined to justify the transaction being undertaken are also taken into consideration to determine whether the price and terms offered to or by the related party(ies) are fair and reasonable, in the best interests of our Company and not detrimental to our non-interested shareholders and comparable to those offered to or by other unrelated third parties for the same or substantially similar type of products, services or quantities; and

- (v) Our Audit Committee shall review the procedures set out by our Company to ensure that such procedures are adequate to monitor, track and identify related party transactions in a timely and orderly manner and that procedures are reviewed on an annual basis or whenever the need arises.

## **2.7 Audit Committee's Statement**

The Audit Committee has seen and reviewed the procedures set out in Section 2.6 of this Circular and is of the view that the procedures are:

- (i) sufficient to ensure that the RRPTs are not more favourable to the Transacting Parties than those generally available to the public and are not to the detriment of our Company's minority shareholders; and
- (ii) adequate to monitor, track and identify RRPTs in a timely and orderly manner and that such procedures are reviewed on an annual basis or whenever the need arises.

## **2.8 Disclosure of RRPTs**

If the Proposed Mandate is approved, disclosure will be made in our Annual Report and in the Annual Reports for the subsequent years that the Proposed Mandate continues to be in force in accordance with the Listing Requirements which requires, in addition to what is set out in Section 2.1(b) of this Circular, a breakdown of the aggregate value of the RRPTs made during the financial year, among others, based on the following information:

- (a) the type of RRPT made; and
- (b) the names of the Related Parties involved in each type of RRPT made and their relationship with our Company.

If the actual value of an RRPT exceeds the estimated value of the RRPT disclosed in Section 2.3 of this Circular by 10% or more, our Company will make an immediate announcement to Bursa Securities which will include information as may be prescribed by Bursa Securities.

## **3. RATIONALE AND BENEFITS OF THE PROPOSED MANDATE**

The RRPTs that have been entered into and will be entered into by our Group are necessary for our business and are intended to meet business needs at the best possible terms. Our Group should be able to have access to all available markets, products and services provided by all vendors including Related Parties and to provide products and services to all persons including our Related Parties. This will enhance the ability of our Group to explore beneficial business opportunities as well as to promote cross-selling which will be beneficial to our Group.

The Proposed Mandate will eliminate the need to announce and convene separate general meetings on each occasion to seek your prior approval for the entry by our Group into such transactions. This will reduce the associated expenses, improve administrative efficiency and allow manpower, resource and time to be better channelled towards achieving other corporate objectives.

The RRPTs are likely to continue in the future on a frequent and recurrent basis from time to time. In addition, these transactions may be constrained by the time-sensitive nature and confidentiality of such transactions, and it may be impractical to seek your prior approval on a case-by-case basis before entering into such transactions.

The RRPTs are transactions in the ordinary course of our business, made on commercial terms on an arm's length basis, on terms not more favourable to the Related Parties than those generally available to the public and are not to the detriment of our minority shareholders.

The benefits of transacting with the Related Parties are as follows:

- (a) The brand license agreement entered into with AirAsia will provide service to guests beyond the four (4)-hour flight radius (i.e. long-haul routes). This agreement will allow AAX to operate and be visually recognisable within the AirAsia Group of airlines.
- (b) AirAsia has the capacity to provide the range of services to our Company as detailed in Section 2.3 of this Circular. The provision of these services will extend and sustain our Company's existing operations. This will also rationalise and standardise the services provided across the associate companies.
- (c) The provision of charter services to Beirut, Lebanon by our Company for the Malbatt contingent promotes continuous brand elevation as AirAsia will continue to be a major service provider to the Ministry of Defence. This will attract others among young enthusiasts in the country to join the Malaysian Armed Forces and it will also promote the AirAsia brand.
- (d) The chartered air travel services and key management provided by CJG for members of our Board are vital as Tan Sri Dr. Tony Fernandes, our Non-Independent Non-Executive Director and Datuk Kamarudin, our Non-Independent Executive Director and Group Chief Executive Officer frequently travel for corporate matters and strategic development activities of our Company. The AirAsia brand has steadily grown and is now spread out across Asia Pacific, necessitating increased travelling to explore, assess and implement our growth strategies and future plans. Further, Tan Sri Dr. Tony Fernandes and Datuk Kamarudin are heavily involved in setting up joint ventures and negotiating new business opportunities on behalf of our Company. This may require them to travel to destinations not covered in the AirAsia network, forcing them to rely on commercial flights operated by other carriers and charter flights which may not be cost-efficient in the long term. Commercial flight times can be infrequent or ill-timed, especially on low-traffic routes, and may not sync with Tan Sri Dr Tony Fernandes and Datuk Kamarudin's busy schedules, resulting in productivity loss due to waiting.
- (e) The sale and supply agreement entered into with Rokki will offer an in-flight entertainment system on AAX's flights to all its long-haul destinations. The passengers on AAX's flights will be able to enjoy in-flight entertainment such as movies, TV shows, music and games. It is our Company's commitment in driving innovation while enhancing passengers' in-flight experience.
- (f) While our Company values the importance of travel insurance as part of our business, the insurance business is not our core business. As such it would be more efficient and cost effective if Tune Insurance undertakes the sourcing of insurance for our Company. This will enable our Company to monetise and leverage on our Company's large customer base for additional revenue without any additional investment outlay whilst improving performance of our travel insurance business and reducing the cost of dealing with multiple parties through the central management by Tune Insurance. Tune Insurance has proven to be reliable in its delivery of services and fulfils the quality expectations of our Company, hence, any risk of interruption to our Company's day-to-day operations would be minimised. Tune Insurance is also familiar with our Company's operations and therefore, is able to meet the business needs and requirements of our Company. Further, this would enable our Company to concentrate on our core business while maximising business opportunities.

- (g) AACOE has the capacity and necessary expertise to provide commercial training services and non-pilot training services to our Company. This would enable our Company to concentrate on our core business and existing operations.
- (h) Think BIG operates and manages the BIG Loyalty Program. It plans to accelerate the growth of Asia's best frequent flying loyalty programme catering to low-cost carrier customers. Our Company will purchase loyalty points from Think BIG and issue the loyalty points to our customers when they purchase flights or duty free items. The purchase of loyalty points is an expense incurred by our Company. The BIG Loyalty Program is beneficial to our Company as it has a large membership base of over 1 million as at the LPD. Participation by our Company in the BIG Loyalty Program has contributed to an increase of our passenger load.
- (i) AGSS has the capacity to provide the range of services to our Company as detailed in Section 2.3 of this Circular. The provision of these services will assist and complement our Company's existing operations. This will also rationalise and standardise the services provided across the associate companies.
- (j) The Company having sufficient number of instructors (ratio of 1 instructor: 6 pilots) is able to provide or supply its instructors for simulator and ground training services to AACOE and its customers. In order to support the growth of AACOE's clientele, the Company will gain mutual benefit through this transaction as the training rates were derived through mutual agreement with AACOE and based on the current market rate for pilot training. As the training provided by the Company's instructors are similar to the training conducted within the Company, there will be no additional qualifications or requirements that will need to be satisfied to cope with AACOE's additional training demand.
- (k) The Company has the capacity to provide carriage support to its sister company, AirAsia for its passengers through various routes during its peak travelling period. Such support will also maximise the Company's aircraft utilisation hours and generate positive returns.
- (l) The Company has launched an airport lounge at the Kuala Lumpur International Airport (klia2) providing lounge services to passengers, which includes provision of food and beverages. Yummy Kitchen provides food catering services to the said airport lounge five times daily at a competitive price, hence complementing our Company's commitment to provide a holistic flying experience to our passengers.
- (m) Think BIG operates and manages the BIG Loyalty Program. It plans to accelerate growth of Asia's best frequent flying loyalty programme catering to low-cost carrier customers. Our Company participates in a loyalty programme where our customers accumulate points for purchases made which entitle them for free flights, discounts on future purchases or other AirAsia add-ons such as baggage and Hot Seats. Award points are recognised as a cost of sale at the time of issue while revenue from the award points is recognised when the points are redeemed. The amount of revenue is based on the number of points redeemed and the redemption value of each point.
- (n) In order to facilitate the Company's operational requirements in the Indonesian stations it flies to or intends to fly to, the Company requires operational assistance from IAA to provide ground handling services in the said stations.
- (o) In line with the Company's commitment to provide a holistic flying experience to its passengers, the Company has granted accessibility of the airport lounge at the Kuala Lumpur International Airport (klia2) to the passengers of AirAsia Group under the agreement with AirAsia.
- (p) In order to facilitate AAJ's operational requirements in the AAX stations that it flies to or plans to fly to, AAJ will require operational assistance from the Company through the Company's employees, sharing of office premise(s) and other applicable facilities

(as the case may be) to be provided by AAX in the said stations. The arrangement between AAX and AAJ will allow AAJ to procure such commercial services from AAX in all the AAX stations or countries that our Company operates in on the basis of sharing of resources and costs, which will in turn allow the Company to reduce its operations cost at each of its own stations.

- (q) In order to facilitate PAA's operational requirements in the AAX stations that it flies to or plans to fly to, PAA will require operational assistance from the Company through the Company's employees, sharing of office premise(s) and other applicable facilities (as the case may be) to be provided by AAX in the said stations.
